Simcom Flash Update Tool V1 10

Be careful to process. Hi I have the version 1008B11SIM300C32_SST34HF3284 of simcom I obtain the 1008B13SIM300C32_SST34HF3284 firmware but I have problem with the Domain service, I can't use this function the B13 have problem with domain GPRS connection, they only connect by IP, you available the B14 version?? This version fix the problem domain,can you help me, but if you need the B13 version I can send to you.. Updating firmware of SIM800 GSM Module Sim800 firmware flash tool, sim800 firmware update.. The file version is: 10 0 8(XMST)3010SST34HFP2(2_16) PLEASE HELP THANKS IN ADVANCE[/quote].. Caution: There is a risk of damaging the SIM900 module when updating the firmware.. Thanks Harold quote='sheikhfayaz']hello every body i have a simcom sim300 module when i upload the total flash it uploads successfully but when i download the total flash to module it displays message AREA OUT OF BOUND please help whats problem.

Can you provide correct link to SIMCOM series download Hi I have the version 1008B11SIM300C32_SST34HF3284 of simcom I obtain the 1008B13SIM300C32_SST34HF3284 firmware but I have problem with the Domain service, I can't use this function the B13 have problem with domain GPRS connection, they only connect by IP, you available the B14 version?? This version fix the problem domain,can you help me, but if you need the B13 version I can send to you.
